

SOME HELP WITH TRAVEL PLANS

Arriving by Taxi

There are many taxi services that will meet you at the arrivals gate and take you to Cambridge/Hinxton. These need to be pre-booked and I found two useful websites that might help.

<https://www.taxicode.com/quotes/2395386470D68EEA541A5D98F577E726/>

<https://www.ukairporttaxi.co.uk/about-uk-airport-taxi.aspx>

When your taxi arrives tell the driver to take lane 2 and report to the security gate where security will check your name against the list and direct you to the conference centre.

Travelling by Train

Whether travelling by train from one of the airports or via Eurostar the station to head for is Cambridge (there are 2 other stations but the one you want is Cambridge). You can purchase tickets at the Stations or via this website which includes the London Tube/Metro services.

<https://www.greateranglia.co.uk/travel-information/station-information/cbg>

The Station is very close to several hotels on the list, for instance the IBIS, Clayton, Centennial and Orlando Hotels.

The Station is within walking distance of all the other City Centre Hotels, but distance should be considered if travelling with lots of luggage.

The taxi rank at the station is just by the main exit of the station and well served by local taxi firms. If you are travelling on to accommodation at Hinxton Hall this is the best option for your arrival, if it is on Sunday.

Bus services from the airports

The National Express Service operates services from the London airports (except City airport). You do not need to book in advance but it may help with planning your Journey. The City centre stop in Cambridge is the one to use. It is close to the hotels at Parker's Piece.

Arriving by Car

There is a large car park at Hinxtton Hall, post code and delegates are welcome to leave their car there for the duration of the Conference. Full address: Wellcome Trust Genome Campus, Hinxtton Hall, Hinxtton CB10 1RQ

There is limited car parking in the City, and it is rather expensive. We will organise transport to an from the venue at the start and end of the day, plus normal taxi and bus services between Hinxtton Hall and Cambridge.

The Wellcome Genome Campus is a security gated site, so on arrival please approach the campus entrance in lane 2. Security will check your name off and direct you to the conference centre car park (car park D). Go through the car park to the reserved spaces at the back of the car park.

Please print the parking permit and display it in your windscreen when you arrive at the security gate and show it clearly on your car dash board for the duration of your stay. The printable permit is on the next page.

If you are staying on campus then you will be able to check in to your bedrooms from 2pm at the conference reception desk, located in the conference centre. Lanyards and other conference information will be available from the registration desk located in the exhibition space.

ENTRANCE/PARKING PERMIT

EVENT: International Conference on Calcium Aluminates

DATE(S): 17 – 20th July 2022

Wellcome Genome Campus, Conference Centre, Hinxton, Cambridge, CB10 1RQ

Delegates need to display the parking permit and approach lane 2 on arriving at the campus entrance. Security will check delegates off and direct to the Conference Centre. For those arriving via taxi please provide permit for the driver for swifter access. Please keep permit displayed throughout your stay. When using the Conference Centre Car Park, please drive through to the coned off area, which has been specifically allocated for Conference Guests.

Visitors who park on campus do so at their own risk, the Wellcome Genome Campus takes no responsibility for any damage or loss incurred whilst parked on the campus. CCTV in operation in car parks is for traffic management purposes only and not incident investigation.
